

All You Need for
Cross-Coupling

Add **Aldrich**[™]

Aldrich[®] Supplies Everything Needed to Perform Cross-Coupling Reactions

From boronic acids to Buchwald-Hartwig ligands, we have the catalysts, ligands, reagents and building blocks to complete your synthesis.

Boronic Acids and Suzuki coupling, bundle

- Organometallic reagents – Boronic acids
- Building blocks – Halogenated hydrocarbons
- Catalysts

Negishi coupling, bundle

- Organometallic reagents – Organozinc Halides (Rieke[®] solutions)
- Building blocks – Halogenated heterocycles
- Catalysts

Sonogashira coupling, bundle

- Building blocks – Alkynes & Halogenated heterocycles
- Catalysts – Pd and Cu

To find the right products for your cross-coupling reactions, visit Aldrich.com/crosscoupling

Stille coupling, bundle

- Organometallic reagents – Organotin
- Building blocks – Halogenated heterocycles
- Catalysts

Buchwald-Hartwig coupling, bundle

- Building blocks – Alcohols or Amines & Halogenated heterocycles
- Catalysts and Ligands

Heck coupling, bundle

- Building blocks – Alkenes & Halogenated heterocycles
- Catalysts
